

*Advanced supply chain  
solutions for our  
evolving world*

**BELIEVE IN THE  
POWER OF US**

# SPECIALISED LOGISTICS AND **SIMPLIFIED** SOLUTIONS

## **A global provider of world-class, end-to-end supply chain services**

Leveraging over 100 years of experience, TVS Supply Chain Solutions (SCS) is a global organisation providing end-to-end supply chain management services and solutions.

Our heart may be in Asia, but our reach is worldwide. We are part of the TVS Group with deep knowledge and capabilities in vehicle manufacturing, automotive components and supply chain solutions.

## **Intimate local knowledge with global connections**

Yet our unique point of difference remains in our understanding of the local intricacies of how to seamlessly connect supply chains with advanced solutions powered by proven technologies.

- ▶ Digital-first and customer-centric approach offers you advanced solutions for the evolving world.
- ▶ Full suite of capabilities encompassing Global Forwarding, Supply Chain Optimisation and Value-Added Solutions
- ▶ Operational excellence in our business process to deliver high-quality services and reliability.
- ▶ Advanced technology and an in-depth understanding of your industry and supply chain, we transform your business digitally.
- ▶ Our people and culture: TVS – Trust, Value, Service

***Simplifying global supply chains,  
unlocking more opportunities***

## HOW WE DELIVER VALUE

### **Solutions powered by industry expertise, advanced technology and logistics specialists**

Recently listed on the Indian stock exchange, we operate across 26 countries in 500 unique locations and more than 27 million sq. ft warehouse space, utilising the expertise and knowledge of our 18,000 logistics professionals to deliver holistic end-to-end supply chain services tailored to our customer's needs.

We prioritise operational excellence, harnessing cutting-edge technology to drive business transformation. Our customer-centric, digital-first strategy offers advanced solutions and capabilities, including transportation, warehousing, fulfilment, inventory management, contract logistics, and supply chain management.

### **eConnect: Simplifying complex supply chains with technology**

Our next-generation digital customer platform – **eConnect** – has received a cutting-edge upgrade, making it the ultimate solution for enhanced visibility and greater control of your supply chain.

eConnect enables proactive supply chain management through seamless integration with our cloud-based data warehouse. Utilising real-time data and intuitive analytics, it empowers informed decision-making for sustained success.

Shaped by user feedback, our customer-centric platform guarantees easy navigation and complete control over your shipments, warehousing, and everyday logistics, 24/7.
