PROBLEM:

Freight forwarders from one side and Airlines / Cargo GSA from other side manage their business relations processes using:

either **complex out of date** enterprise solutions lacking integration

AW-15-10 Amerijet International

or **manual tools** like mails and excels which are time-consuming and have human error risk issues control

Excel spreadsheet showing detailed air cargo tracking and pricing information. The spreadsheet includes columns for flight details, charges, and status. It is a complex manual tool used for managing air cargo business relations.

RESULT:

manual process or mails back and forth, long time for quoting, additional expenses, poor performance and customer service, non-transparency.

SOLUTION:

CargoBooking.aero offers full process automation for instant air cargo quoting and booking which can be integrated to freight forwarder systems by API.

Works as consolidator of all possible flights/truck options with customer rates and spot rates requests.

Real time flights/rates
search and pre
book/spot rate quoting
via customer portal,
email or API.

Digitising
the current way
of the manual
process by
emails or calls.

Faster
quotes and booking
processing for Freight
Forwarders and
Airlines/Cargo GSA.

Functionality
support of the full
airfreight and
charter sales
business workflow.

**More tight integration in
processes with customers**
improved loyalty and better
customer experience.

System Login/Registration

Each client passes the automated verification process with human final recheck and approval.

Client receives access to only assigned airlines/agents general rates and client specific rates.
